

WINTER NEWSLETTER 2017

EMTEC GROUP OPEN 9TH REGIONAL OFFICE

Emtec Group added to their UK presence this year by opening their 9th regional office. The Manchester office opened in November and will primarily support the development of our Facilities Services division in the North.

Emtec's Branding division completed the full office re-fit, which included the design, manufacture and installation of all signage elements along with office furnishings, decoration and flooring. Signage works comprised of manifestation to every meeting room, wall signage and feature wall graphics in the main office space.

ENERGY CELEBRATE SUCCESS

Our **Energy and Renewables** division have picked up another national award at the Solar Power Portal Awards ceremony in Birmingham. After being shortlisted for 4 awards including contractor of the year, Emtec Energy were successful in picking up the 'Best use of Storage in a Domestic or Non Domestic Project' for their Broomcourt Care Home contract.

Chris Clark, Emtec Energy Managing Director has been appointed as the new Chairman of The Solar Trade Association Scotland. STA Scotland are the leading voice for solar in Scotland and lobby hard to reduce barriers of deployment such as grid, business rates and building regulations.

WORKS COMMENCE AT QUEEN STREET STATION REFURBISHMENT

Emtec Fire Systems have been selected to design, supply and install the fire sprinkler system within the new Queen Street Station refurbishment project.

The system will comprise of a bespoke water supply arrangement complete with a network of pipework that will feed 18 shop units with a full electronic monitoring system within the new station layout.

PROJECT SPOTLIGHT

SUPERDRUG REBRAND CONTINUES

Superdrug recently launched their newest store in Belfast which **Emtec Branding** successfully provided the fitout and signage for.

Internally, the project included mostly large-scale digitally printed tension fabric graphics and printed light weight Smart-X board, while the external scope included the shopfront fascia, high level flex face signs to front and back elevations, as well as shopping park totem signs.

As part of Emtec Branding's programme of store rebrands for Superdrug, this has been the largest store to be undertaken to date.

EBS EDUCATION SECTOR PROFILE RAISES

Emtec Building Services have recently been awarded a number of significant contracts in the Education sector.

The Newcastle branch recently completed M&E works at the re-fit and conversion of Cloth Hall at Leeds Beckett University. The works involved the refurb of a 5 storey building including the replacement of the main central plant and controls systems.

Our Birmingham division have also been awarded contracts which include the M&E installations at both Rogers Theatre, Malvern College and Solihull Academy.

EBS Glasgow has commenced work at Collegelands which is a design and build delivery of a fully serviced 458 bedded Student Accommodation block in the heart of Glasgow City Centre.

DIAMOND DRILLING AND SAWING WORKS BEGIN AT STUDENT ACCOMODATION

Emtec Core & Protect have commenced works at Andrew Melville Hall in St Andrews for their client Graham Construction. Andrew Melville Hall is a student halls of residence, constructed in 1967 using prefabricated concrete modules, and is currently being fully refurbished to bring it up to HMO standards.

The contract involves diamond drilling and sawing works to create new service openings in concrete walls and floors throughout the 276 bedroom building, as well as utilising Brokk Robotic Demolition machines for the controlled demolition of existing concrete stairs, ramps and walls.

EMTEC GROUP WOULD LIKE TO WISH YOU A MERRY CHRISTMAS AND A VERY HAPPY NEW YEAR.

WE LOOK FORWARD TO A GREAT 2018!
